

# Introduction to CS 2316

# The Role of CS 2316

- ▶ A practically oriented "CS2 for IE majors" but useful for anyone!
  - ▶ So useful that CoC is developing a "CS 2316 on steroids" for CS majors
- ▶ Preparation for popular follow-on courses:
  - ▶ CSE 6240/CX 4240 Introduction to Computational Data Analysis
  - ▶ CSE 6242/CX 4242 Data and Visual Analytics
  - ▶ CS 4400 Introduction to Database Systems (required for IE majors)
- ▶ Fundamental skills required for Data Science, the [sexiest job of the 21st century](#). (Next steps would be the courses listed above.)

# Course Web Sites

- ▶ T-Square: FERPA-protected information
  - ▶ Grades
  - ▶ Homework submission
- ▶ <http://cs2316.gatech.edu/>: everything else
  - ▶ Syllabus, schedule, office hours
  - ▶ Resources: installing required software, documentation, how-tos, etc.

# Getting Started

Go to the [Resources](#) section of the [class web site](#) and do the steps under "Get Started".

# Meet the Teacher(s)

- ▶ Prof. Simpkins
